Luigi Oddero Barolo 2005 DOCG 14% vol.	39.00

### ● NATURAL WINES

*Included on this list is a selection of 'Natural Wines'. These are sourced from small artisan growers who work sustainably or organically in the vineyard and with minimal interventions in the winery. Much of the farming is labour-intensive, sometimes done with horses rather than tractors and all of the picking and selection by hand. Yields, usually from old vines, are low. Fermentations tend to be with wild yeasts and most wines are made with much lower than normal additions of sulphur and many are unfiltered and unfinned. In style the wines tend to be light-to-medium bodied, fresh (even refreshing), savoury, occasionally challenging, but always delicious to drink – and even more delicious with food.*
